

Modern Country Australasia

Havana 32 – Botanical Estate

The Havana 32 uses the countryside's rolling hills and red earth as inspiration to create a moody and modern, yet still warm and inviting home.

The simplified colour palette with muted tones of tanned leather and rust in the accessories, soft furnishings and prints work perfectly with the lighter polished floors and grey Caesarstone benchtops. This has been offset with the richness of dark, bold furniture but using a formula that is still very welcoming.

‘The home is dark and striking, but at the same time homely, warm and inviting. The interiors prove that modernised versions of old favourites don’t need to be harsh, but can be beautiful,’

Mitra Whittle, Senior Interior Designer
