

ON DISPLAY

Montana 42

American farmhouse with an industrial twist.

The rustic and inviting style of the Montana 42 creates a sense of casual living with a level of authentic class and sophisticated ambience. The high raked ceiling expands into both living areas with the light but textured façade carrying through internally. The four-bedroom home uses rustic timbers with organic woven fabrics and textural walls to bring out the casual country, industrial feel. The multi-zone living is perfect for those wanting to entertain on a large scale, or enjoy quality time with family.

On display at Redstone Estate, 2 Wanderer Road, Sunbury.
